# PENSION ADJUSTMENT PROCEDURES

This manual is to be used for the following pension plans:

- New Brunswick Teachers' Pension Plan
- Full-Time CUPE 2745 Employees of New Brunswick School Districts
- New Brunswick Public Service Pension Plan
- Shared Risk Plan for CUPE Employees of New Brunswick Hospitals
- Shared Risk Plan for Certain Bargaining Employees of New Brunswick Hospitals
- Pension Plan for General Labour, Trades & Services Employees of New Brunswick School Districts
- Pension Plan for Part-Time & Seasonal Employees of the Province of New Brunswick

Print without Appendix A and B

# Table of CONTENTS

**PENSION PLAN SPECIFICS** — 3

## Pension Plan Specifics

This Procedure Manual is to be used to calculate the Pension Adjustments (PA) for the employees who are members of the following pension plans. The pension plans have been grouped based on their different benefit calculation formula.

Please refer to the grouping (listed below) and the corresponding tables.

| Pension Plan Name | Registration Number (Box 50 on T4) |
|---|---|
| **GROUP A (please refer to Table A)** | |
| New Brunswick Teachers' Pension Plan | 0293696 |
| Full-Time CUPE 2745 Employees of New Brunswick School Districts | 1025477 |
| **GROUP B (please refer to Table B)** | |
| New Brunswick Public Service Pension Plan | 0305839 |
| Shared Risk Plan for CUPE Employees of New Brunswick Hospitals | 0385849 |
| Shared Risk Plan for Certain Bargaining Employees of New Brunswick Hospitals | 0385856 |
| General Labour, Trades & Services Employees of New Brunswick School Districts | 0374223 |
| **OTHER** | |
| Part-Time and Seasonal Employees of New Brunswick | 1021229 |

The registration number for each pension plan must be entered in box 50 of the employee's T4.

## Pension Adjustments (PA)

If you do your own PA calculation, check several sample calculations against the PA tables. Your calculation must agree within $5.

> If you have any questions about designing your own formula, call Vestcor at **1-800-561-4012**.

The following amounts should be noted for the 2025 PA calculations. Please adjust your computer programs, spreadsheets, or manual calculations accordingly. If you use the tables, you must use the table applicable to the pension plans for the year 2025.

- **2025 YMPE IS $71,300.**

---

- **2025 MAXIMUM PENSION ADJUSTMENT IS $33,210.**

### Reporting Pension Adjustments

All employers must report the PA on the employees' T4 and submit the T4 information to the Canada Revenue Agency by February 28, 2026.

> **PLEASE NOTE:**
> **Vestcor reports the Pension Adjustments directly to employees for their long-term disability period.**
>
> **If you are an employer who has opted out of the Government of New Brunswick plan, you are responsible to report Pension Adjustments for periods of service while employees were in receipt of LTD Benefits. Please contact our office if you have any questions.**

If the employee was deceased during the year, no PA needs to be reported on the T4.

If you require additional information about the federal requirements on Pension Adjustments, the following point of contact will be useful:

**Canada Revenue Agency telephone number:**

| | |
|---|---|
| **ENGLISH** | 1-800-267-3100 |

## Pension Adjustments Formula

**Full-time employee who contributed for an entire year**

The PA formula for employees with 12 months of pensionable service in the year:

**PA = (9 X Benefit Entitlement) - $600**

Make the calculation in two steps. First, using the Benefit Entitlement formula, calculate the Benefit Entitlement (BE). Then, calculate the Pension Adjustment using the PA formula.

## Pension Benefit Limits

For 2025, the maximum pension limit increased to $3,756.67, resulting in a maximum Pension Adjustment of $33,210.

# GROUP A:

- New Brunswick Teachers' Pension Plan
- Full-Time CUPE 2745 Employees of New Brunswick School Districts

### Determination of Benefit Entitlement (BE)

## STEP 1:

The BE formula uses the benefit rate formula in the pension plan to approximate the amount of lifetime pension earned by the employee during the year.

The Benefit Entitlement formula is:

**BE = (1.3% X Pensionable Earnings up to the YMPE)**

**Plus**

**(2% X Pensionable Earnings over the YMPE)**

**EXAMPLE:**

An employee has 12 months of pensionable service and pensionable earnings of $76,500 in 2025. The YMPE for 2025 is $71,300.

Calculation

BE {1.3% X $71,300} + {2% X ($76,500 - $71,300)} = $1,030.90

The BE of $1,030.90 will be used to calculate the PA.

**Note:** If the employee's pensionable earnings are less than the YMPE, multiply those earnings by 1.3% to obtain the BE (e.g., with 12 months' pensionable earnings of $50,000, the BE is $650).

## Determination of Pension Adjustments

### STEP 2:

Once you have calculated the BE, you must calculate the Pension Adjustment (PA).
Use this formula:

**PA = (9 X Benefit Entitlement) - $600**

**EXAMPLE:**

From the previous example, an employee has 12 months of pensionable service and pensionable earnings of $76,500 in 2025. The YMPE for 2025 is $71,300. The Benefit Entitlement is $1030.90.

**PA = (9 X $1,030.90) - $600 = $8,678**

The PA is always rounded to the nearest dollar. The PA cannot be a negative number; if your calculation works out to a negative number, the PA is zero.

## Determination of Annualized Pensionable Earnings

**Pensionable Earnings** include earnings on which contributions are actually paid during the particular year. Retroactive earnings are counted in the calendar year that they are received, unless the employee terminated before.[1]

**Annualized Pensionable Earnings** may be calculated by dividing the Pensionable Earnings by the fraction of the year during which they were paid.

**EXAMPLE:**

| **DATA** | |
|---|---|
| Earnings on which contributions were paid for 2025: | $19,500 |
| Number of calendar days related to contributions: | 175 |
| Retroactive earnings on which contributions were paid during 2025: | $3,250 |
| | |
| **RESULTS** | |
| Total pensionable earnings: | |
| ($19,500 + $3,250) | $22,750 |
| | |
| Annualized pensionable earnings: | |
| $22,750 ÷ (175/365) | $47,450 |

[1] In the latter case, the Pension Adjustment for the last calendar year of employment must be recalculated, and any increase is reported as the PA for the year in which the retroactive pay was received.

## Use of Tables for Manual Determination of Pension Adjustments (PA)

### PA FOR FULL-TIME EMPLOYEES WHO CONTRIBUTED FOR AN ENTIRE YEAR

The PA amount in the tables can be used directly for a full-time employee who contributed throughout the entire year.

**EXAMPLE:**

| **DATA** | |
|---|---|
| Pensionable earnings for 2025: | $39,900 |
| **RESULTS** | |
| Pension Adjustment (PA): | **$4,070** |

If you look at the range of salaries between $39,900 and $39,924, you will see that the PA is $4,070. This figure applies only to a full-time employee who contributed throughout the entire year.

### PA FOR EMPLOYEES WITH LESS THAN A YEAR OF PENSIONABLE SERVICE:

**EXAMPLE:**

| **DATA** | |
|---|---|
| Pensionable earnings for 2025: | $24,555 |
| Number of days for which contributions were made: | 183 |
| **RESULTS** | |
| Annualized pensionable earnings:<br>$24,555 ÷ (183/365) | $48,976 |
| Amount of PA from tables: | $5,131 |
| Fraction of year of pensionable service: | 183/365 |
| PA to be reported:<br>$5,131 X (183/365) | **$2,573** |

Contributions were paid on $24,555 during a period of 183 calendar days. If they had worked for the full calendar year of 365 days, contributions would have been based on $48,976. When the range of $48,975 to $48,999 is looked up in the tables, the amount in the PA column is $5,131. The PA to be reported is 183/365 of $5,131 or $2,573.

# GROUP B:

- New Brunswick Public Service Pension Plan
- Shared Risk Plan for CUPE Employees of New Brunswick Hospitals
- Shared Risk Plan for Certain Bargaining Employees of New Brunswick Hospitals
- General Labour, Trades & Services Employees of New Brunswick School Districts

## Determination of Benefit Entitlement (BE)

### STEP 1:

The BE formula uses the benefit rate formula in the pension plan to approximate the amount of lifetime pension earned by the employee during the year.

The Benefit Entitlement formula is:

**BE = (1.4% X Pensionable Earnings up to the YMPE)**

**Plus**

**(2% X Pensionable Earnings over the YMPE)**

**EXAMPLE:**

An employee has 12 months of pensionable service and pensionable earnings of $76,500 in 2025. The YMPE for 2025 is $71,300.

Calculation

BE {1.4% X $71,300} + {2% X ($76,500 - $71,300)} = $1,102.20

The BE of $1,102.20 will be used to calculate the PA.

**Note:** If the employee's pensionable earnings are less than the YMPE, multiply those earnings by 1.4% to obtain the BE (e.g., with 12 months' pensionable earnings of $50,000, the BE is $700).

## Determination of Pension Adjustments

### STEP 2:

Once you have calculated the BE, you must calculate the Pension Adjustment (PA).
Use this formula:

**PA = (9 X Benefit Entitlement) - $600**

**EXAMPLE:**

From the previous example, an employee has 12 months of pensionable service and pensionable earnings of $76,500 in 2025. The YMPE for 2025 is $71,300. The Benefit Entitlement is $1,102.20.

**PA = (9 X $1,102.20) - $600 = $9,320**

The PA is always rounded to the nearest dollar. The PA cannot be a negative number; if your calculation works out to a negative number, the PA is zero.

## Determination of Annualized Pensionable Earnings

**Pensionable Earnings** include earnings on which contributions are actually paid during the particular year. Retroactive earnings are counted in the calendar year that they are received, unless the employee terminated before.[1]

**Annualized Pensionable Earnings** may be calculated by dividing the Pensionable Earnings by the fraction of the year during which they were paid.

**EXAMPLE:**

| **DATA** | |
|---|---|
| Earnings on which contributions were paid for 2025: | $19,500 |
| Number of calendar days related to contributions: | 175 |
| Retroactive earnings on which contributions were paid during 2025: | $3,250 |
| | |
| **RESULTS** | |
| Total pensionable earnings: | |
| ($19,500 + $3,250) | $22,750 |
| | |
| Annualized pensionable earnings: | |
| $22,750 ÷ (175/365) | $47,450 |

[1] In the latter case, the Pension Adjustment for the last calendar year of employment must be recalculated, and any increase is reported as the PA for the year in which the retroactive pay was received.

## Use of Tables for Manual Determination of Pension Adjustments (PA)

### PA FOR FULL-TIME EMPLOYEES WHO CONTRIBUTED FOR AN ENTIRE YEAR

The PA amount in the tables can be used directly for a full-time employee who contributed throughout the entire year.

**EXAMPLE:**

| **DATA** | |
|---|---|
| Pensionable earnings for 2025: | $39,900 |
| **RESULTS** | |
| Pension Adjustment (PA): | **$4,429** |

If you look at the range of salary between $39,900 and $39,924, you will see that the PA is $4,429. This figure applies only to a full-time employee who contributed throughout the entire year.

### PA FOR EMPLOYEES WITH LESS THAN A YEAR OF PENSIONABLE SERVICE

**EXAMPLE:**

| **DATA** | |
|---|---|
| Pensionable earnings for 2025: | $17,034 |
| number of days for which contributions were made: | 183 |
| **RESULTS** | |
| Annualized pensionable earnings:<br>$17,034 ÷ (183/365) | $33,975 |
| Amount of PA from tables:<br>(in range $33,975 to $33,999) | $3,682 |
| Fraction of year of pensionable service: | 183/365 |
| PA to be reported:<br>$3,682 X (183/365) | **$1,846** |

Contributions were paid on $17,034 during a period of 183 calendar days. If they had worked for the full calendar year of 365 days, contributions would have been based on $33,975. When the range of $33,975 to $33,999 is looked up in the tables, the amount in the PA column is $3,682. The PA to be reported is 183/365 of $3,682 or $1,846.

## Pension Plan for Part-Time and Seasonal Employees of New Brunswick

This plan is administered by Manulife. Inquiries can be directed to 1 800-242-1704. Employers **will not** be required to forward T4 data to Manulife. However, employers **will be** responsible for calculating and reporting a member's PA to the member and the Canada Revenue Agency (CRA).

Please note the T4 data must be forwarded to the Canada Revenue Agency by February 28, 2026.

The PA calculation is the following:

**PA = EMPLOYEE (MEMBER) CONTRIBUTIONS + EMPLOYER CONTRIBUTIONS**

**NOTE:** The employee contributions include Regular Contributions and Additional Voluntary Contributions.

## Phased-In Retirement Program

The option to participate in the Phased-In Retirement Program is available to full-time employees who:

- Participate in the Shared Risk Plan for Certain Bargaining Employees of New Brunswick Hospitals.
- Are employed by the New Brunswick Union of Public and Private Employees or are covered by one of the following collective agreements:
    - Nurses, Part III
    - Nurse Managers and Nurse Supervisors
    - Medical Science Professionals
    - Specialized Health Care Professionals
    - Laboratory & Medical, Technical Inspections, Engineering & Field, Highway Supervisors Collective Agreement

Pensionable service will continue to accrue as though the employee continued to work full-time, with no required employee or employer pension contributions. In addition, the salary used to calculate the pension at date of retirement will be as though the employee had worked full-time.

The employer calculates the Pension Adjustments (PA) for employees participating in this Phased-In Retirement Program. The employer would calculate the full-year PA utilizing "deemed annualized earnings".

Deemed annualized earnings can be calculated by dividing the pensionable earnings by the fraction of the year during which they were paid.

**Pension Adjustments (PA) for individuals in Phased-In Retirement are to be calculated as though the person had continued to work full time and received the equivalent full-time salary during the whole year (see Examples 1 & 2) on the next page.**

**The PA will only need to be pro-rated if the individual ends Phased-In Retirement and retires during the year (see Example #3) on the next page.**

## Examples:

Assuming the employee's normal full-time pensionable earnings are $61,000 (annual) and working at 50% of the time during the Phased-In Period.

**EXAMPLE 1:**

Example of a PA calculation for an individual who participated in Phased-In Retirement during the whole year:

| | |
|---|---|
| Actual pensionable earnings received during the year: | $30,500 |
| Deemed pensionable earnings to be used for the PA calculation: | $61,000 |
| Amount of PA from tables (based on deemed pensionable earnings): | $7,088 |
| PA to be reported: | **$7,088** |

**EXAMPLE 2:**

Example of a PA calculation for an individual who commenced Phased-In Retirement during the year:

| | |
|---|---|
| Date commenced Phased-In Retirement: | MAY 1 |
| Actual pensionable earnings received during the year: | $40,500 |
| Deemed pensionable earnings to be used for the PA calculation: | $61,000 |
| Amount of PA from tables (based on deemed pensionable earnings): | $7,088 |
| PA to be reported: | **$7,088** |

**EXAMPLE 3:**

Example of a PA calculation for an individual who ended Phased-In Retirement during the year (assuming the individual went out on retirement):

| | |
|---|---|
| Date Phased-In Retirement Period ends: | MARCH 31 |
| Fraction of the year the individual was participating in Phased-In Retirement (employed): | 90/365 |
| Actual pensionable earnings received during the year: | $9,500 |
| Deemed pensionable earnings for Phased-In Retirement Period:<br>(Actual Pensionable Earnings ÷ Percent worked = $9,500 / 0.5) | $19,000 |
| Annualized deemed pensionable earnings:<br>$19,000 ÷ (90/365) | $77,056 |
| Amount of PA from tables (based on annualized deemed pensionable earnings): | $9,421 |
| Pro-rated PA to be reported:<br>($9,421 x 90/365) | **$2,323** |

PENSION ADJUSTMENT PROCEDURES
